

Guaiacwood Oil

ORIGIN AND PRODUCTION

The Essential Oil (*Bulnesia sarmientoi* Lorentz) is produced from the heartwood & chippings of Guaiacwood, its production method is through steam distillation.

The tree originates in South America, specifically from Argentina and Paraguay and can grow to over 20 metres in height.

The odour profile is Woody, Smoky, sweet and nutty.

Derivatives:

An Acetylated version of the Oil is also available, this is produced by the reaction with acetic anhydride.

TIW holds stock of Guaiacwood Oil 100% P&N at its Australian Warehouse.
